

**New**

Tournus Equipement is developing its TS 2000N wash basin range with several new features.

## ONE-PIECE WASH BASIN

Comes in 2 versions :

### WITH ELECTRONIC CONTROL

Infra red detection cell.  
Robust and reliable French-made tap.

### KNEE-OPERATED

Push button positioned on front panel.

## INSET BIN

This recess allows straightforward installation of the wash basin, regardless of the room taken up by the water inlet and evacuation pipes.

## EASIER INSTALLATION

Thanks to the fixing strip at the rear of the splash back. Fitters simply fit the wash basin on the strip previously fixed to the wall with 3 screws. The tap can be assembled either before or after the bowl is installed.

TS 2000N with electronic control :	Ref.	Overall dim. l x W x h (mm)	TS 2000N knee-operated:	Ref.	Overall dim. l x W x h (mm)
