

The Tournus assets

Hygiene :

Easy to clean thanks to a fully curved inside: curved vertical edges and stamped base. Removable U-sliders on removable uprights.

Eye-catching

The rounded front edge, 60 mm high allows for optimum integration into a line of Tournus units.

Reliability of refrigerated units :

Unite Hermetique (Tecumseh)

Performance :

- Flush-mounted evaporator with distribution tunnel in top part, protected from splashes. The openings are evenly distributed in the top guaranteeing even temperature distribution inside the storage area.
- The injected moulded polyurethan foam ensures quality insulation of all the walls : rear, sides and doors.

STANDARDS UNITS, 5 MODELS OF DOORS AND DRAWERS

UNIT WITH 2 DOORS
