

ROLL'FRESH

TEMPERATURE HOLDING BANQUET TROLLEY IN REFRIGERATED LINK

Easy access to the adjustments :
possibility of deferred starting, alarm for an abnormal rise in temperature, alert for maintenance of the refrigerating unit.

Easy to load :
door opening through 270°.

2 side handles
for guiding and a back bar to make shifting easier.

Practical :
bracket for temperature recorder.

Ergonomics :
Generously dimensioned handle with an exclusive design.

Hygienic :
press-drawn sliders. Built-in evaporator located in the upper part.

Easy handling :
4 swivel wheels including 2 with brakes.

Maintenance :
refrigerating unit located in the lower part. Lowering of the centre of gravity, removable sides : easy maintenance and cleaning.

Refrigerating gas R134a :
minimises the emission of greenhouse effect gases.

Non-marking shockproof surround :
protection of the cabinet and its surroundings.

System effectiveness :
ventilation at the back side. No hot air inside the refrigerated enclosure during door opening. Limitation of noise emissions to the front of the unit.
