

Tournus Equipement shelving consists of aluminium uprights and polypropylene shelves. Quick and easy to assemble, without tools, by simply snapping into place the parts which stiffens the structure.

12 standard lengths from 608 to 1714 mm, 3 depths (400, 500 and 560 mm) and 2 heights (1750 and 2050 mm). You will always find a length of racking to suit your cold room whether it be line or angle mounted, for a big or small space where low cost sturdy racking is a priority.

INNOVATIVE NEW SHELF.

Overhanging of the shelves to cover the upper part of the aluminium bar, for an optimal fit.

TOURNUS EXCLUSIVE:

There is a space at the edge of the shelves where white board erasable markers can be used to note the content of the shelf, helps manage the stock of food (erasable markers are supplied with shelving).

ALL PREVIOUS ADVANTAGE ARE RETAINED

QUICK AND EASY TO ASSEMBLE:

One person alone can assemble 5 metres in 5 minute without tools.

HYGIENE :

The shelving is classified by the mark NF food hygiene. The shelving is made of food quality materials, smooth surfaces, with no lumps or nooks. No food matter can get trapped and they are machine washable.

OPTIMUM ACCESSIBILITY :

The corner hook does away with the upright so as to store products in the corner. Floor cleaning is easier.

STURDINESS :

Uprights made of tubular anodised aluminum 32 x 30 mm. The locking assembly and adjustable feet ensure high stability. The load resistance is 150 kg per level for any length of shelves up to 1512 mm.

NEW FUNCTIONS

STAINLESS STEEL SEPARATION PANELS used to store bottles.

REAR PROTECTION BAR ensures protection of the adjoining wall.

PLATE FOR FIXING TO THE FLOOR AND PLATE FOR FIXING TO THE WALL are useful in extreme situations (for use on boats).

MOBILE SHELVING WITH GUIDANCE RAILS optimizes the storage space.
