

GENERAL SPECIFICATIONS

ROUNDED FRONT EDGE AND ROUNDED USPSTAND ARE SIMILAR TO THOSE OF THE STAINLESS STEEL TABLES AND UNITS

- Stainless steel construction
- Height 900 mm (height 850 mm on request).
- Upstand height 100 mm.
- Grooved draining boards, anti-drip edges.
- Soundproofed basins and draining boards
- 3 covered sides.
- Stainless steel tube underframe Ø 45 mm with adjustable feet, 80 mm indent at rear.
- Delivered with overflow tube and polypropylene siphon, and choice of with or without mixer tap 15 x 21 mm.

**LENGTH 1600 MM
FOR SINKS WITH BASIN 500 X 500 MM**

SINKS LARGE BASINS

- Same specifications, except for:
 - * construction which is welded instead of being assembled using screws.
 - * Delivered complete with overflow tube, filter grid and brass trap, on a pallet instead of delivery as flat pack.

GROOVED DRAINING BOARDS

References for sinks with tap	Basin 500 x 400 x 250 (mm)	Basin 500 x 500 x 300 (mm)	Basin 600 x 500 x 320 (mm)	Basin 760 x 510 x 380 (mm)	Basin 800 x 600 x 450 (mm)
1 basin	-	816 670	816 680	816 860	816 870
1 basin + 1 draining board to right	816 661	816 671	816 681	816 863	816 873

SINKS WITH SHELF

- Lower shelf in stainless steel
- Fixed with screws through parts moulded onto the legs

WALL SINKS

- With basins 500 x 500 or 600 x 500 mm.
- Fixture by 2 or 3 wall supports under upstand, with 2 jacks for horizontal adjustment.

SINK FOR INTEGRATED DISHWASHERS

- With basins 500 x 500 mm.
- Cladding on bowl only, and offset stand, making room to build in a dishwasher.

**ROUNDED FRONT EDGE AND
ROUNDED UPSTAND, GROOVED
DRAINING BOARDS ON ALL MODELS,
INCLUDING MADE-TO-MEASURE**

MADE TO MEASURE SINKS

- With basins 500 x 500 x 300, 600 x 500 x 320, 680 x 510 x 400 (GN), 760 x 510 x 380, 800 x 600 x 450 mm.
- Same conception as the standard sink units, length made-to-measure up to 2500 mm
- Specify when ordering position of basins and drilling diameter for the tap (1 hole - 2 holes) or no drilling (wall tap).
