

Entirely redesigned, all the Tournus stainless steel units are made to the best quality standards available on the market:

- **Reinforced inner panels.**
- **Sliding doors reinforced** and made rigid by a reverse fold which acts as a handle.
- **Shelves flattened edges** to avoid cuts, adjustable in height.
- **Rounded front edge** on base units, and top reinforced with waterproof laminated panel.
- **Sloping top** on wall-hung cupboards, top units and cleaning material storage cupboards.
- **Recess 120 mm deep behind** the units with upstand 700 and 800 mm deep, leaving room for pipes to pass, and grooved plinths.
- **Sturdy hinges on** units with hinged doors.
- **Stainless steel legs** with adjustable jacks Ø 60 mm.

All these characteristics combined ensure compliance with the most stringent requirements in terms of **STURDINESS - HYGIENE - SAFETY** with a **very wide range of dimensions** : 3 depths: 600 - 700 and 800 mm and lengths from 1000 to 2400 mm in 200 mm steps.

**POSSIBILITY of modular combinations** with single-piece worktop including drawer units - slide bars units - without floor - bread bin, etc.
