

YOUR KITCHEN BECOMES INTERACTIVE

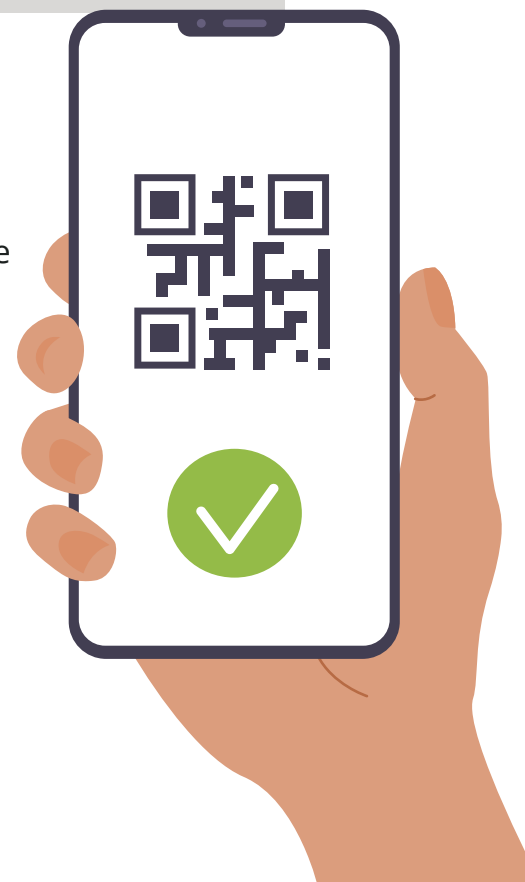

You're in a restaurant kitchen, you need information on product maintenance, you want to order a spare part, you want to be sure of the equipment's origin?

HOW DOES IT WORK ?

- Launch the application on your smartphone
- Scan the QR code with your device
- Choose your language (English, French, German)
- Select the documents you require
- You'll have access to all the information in less than a minute

WHAT THE QR CODE BRINGS YOU...

- Product code and designation
- Date and number of manufacture
- The name of the operator who manufactured it
- Product technical manual
- List of components for after-sales service
- Advice on product maintenance
- End-of-life recycling information
