

RACK AND TRAY DOLLIES

Solidity

The rack and tray dollies from Tournus are sturdy designed products and they are manufactured for a long lasting use.

- Structure and push handle made of stainless steel. Frame in tube 25 x 25 mm, upstand Ø 25 mm.
- Stainless steel or ABS bottom according to the models.
- All welding are made by a robo providing a perfect smoothness.
- Load up to 150 kg.

Ergonomics

- Removable stainless steel or ABS bottom making cleaning easier.
- Stainless steel bottom with folded edges and open corners for outflows.
- 4 swivel wheels Ø 125 mm with polyamide cover, including 2 brakes, with annular bumpers.
- Removable upstand can be added or removed on a rack dolly.

Wide Range

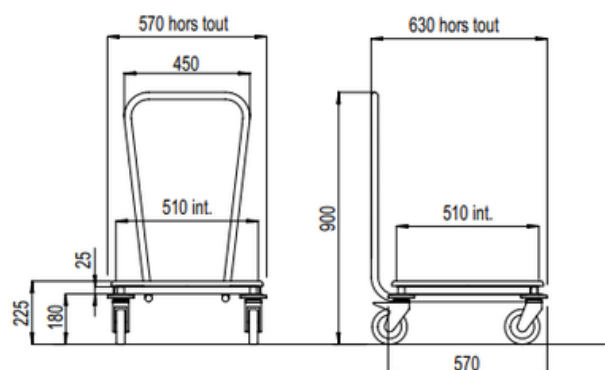

We propose 7 models with or without handle:

- Rack dollies with ABS bottom.
- Stainless steel rack dollies.
- Stainless steel tray dollies.

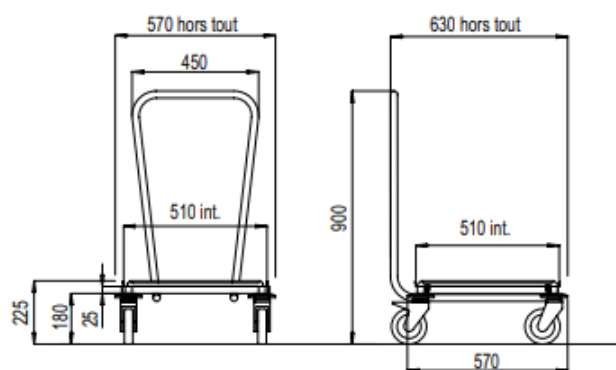

There is also: “GA” rack dollies, cheap models with wheels Ø 100 mm with galvanized steel cover screwed on the tray, maximal load 80 kg.
