

Alcohol gel sanitising post & dispenser with plunger

Take those essential hygiene steps

Specially designed for hygienic environments, the Tournus alcohol gel sanitising post & manual dispenser allows you to combine safety and practicality at low cost.

Economic

This free-standing steel post and sanitising dispenser can be placed in several locations for efficiency and security.

Easy to use

Just apply light pressure with the forearm to dispense the sanitising gel.

The dispenser is easily removable and refillable too.

Forearm action

Practical

You can easily install or relocate the sanitising post and dispenser in many locations as there is no electrical connection.

Large capacity dispensing of approximately **200 doses**.

The slotted window provides easy monitoring of gel level.

Aesthetics 360°

With its 360 degree function, the Tournus sanitising post and dispenser can be strategically placed in multiple locations where hygiene is to be maintained..at the entrance to your establishment, reception desks, offices, changing rooms etc.

Gel dispenser on wheels

with foot switch

Dispenser on wheels for easy movement to suit your indoor or outdoor needs.

Thanks to its large 2 x 5-liter capacity, the Tournus gel and liquid dispenser is ideal for high-traffic stores or businesses. Operates mechanically without touching the dispenser.

Large capacity:
2 x 5 liters
(2 x 2500 doses)

Ease of use

Press the foot pedal to dispense a dose of gel or hydro-alcoholic liquid. Foot-operated control prevents hands from coming into contact with the holder. Entirely mechanical, the dispenser requires no power supply. The dispenser has 2 compartments to accommodate 2 x 5-liter containers. Suitable for all standard canister models on the market, thanks to a dip tube. Easy-to-read gel level display.

Mobility

The dispenser is equipped with a handle and 2 large wheels for easy movement and storage. Space-saving retractable handle.

Efficiency

Large capacity with 2 x 5-liter canisters (2 compartments on top of each other), one for the canister connected to the pump and the other for the reserve canister. Each canister delivers 2,500 doses. Saves time, allowing you to space out gel refills.

Hygienic

All stainless steel construction (sheet metal and screws) for indoor and outdoor use. Smooth stainless steel surface prevents bacteria from penetrating. Easy-to-clean material. Removable, cleanable receptacle positioned under the spout. Prevents splashes on floors and shoes.

Anti-theft device

Anti-theft system (chain, cable) can be attached to wheel axle and handle. Canisters can be secured with a padlock (not supplied) positioned on the rear hood.
