

Specially designed for mobile catering and food service, the stand-alone **Tournus hand wash-basin** is a complete, robust and ergonomic product.

A complete hand wash-basin

It combines all the functions of a cleaning station:

- electrically controlled water supply at the base
- splash guard with soap dispenser (500 ml)
- hand towel dispenser protected by the tank cover
- removable waste bin with hinged lid
- supplied with 2 x 6-volt batteries (autonomy: 2,600 operations)

A robust hand wash-basin

Developed for use in harsh conditions, the **stand-alone hand wash-basin** is made of stainless steel. It has a 3-sided enclosure.

An ergonomic hand wash-basin

It is easy to move thanks to the two fixed wheels (Ø 125 mm) and the handlebar at the top. The hand wash-basin has two 13-liter containers, one for clean water and the other for waste water. The containers are held in place by a removable bar when the unit is moved. There is space under the tank for storing two spare batteries.
