

ROOM- TEMPERATURE WATER DISPENSERS

WHAT'S
NEW

AT TOURNUS

Fountain incorporated into a bespoke design

- Water cooler add-on for Tournus units: ref. 701 830.

Wall-mounted water cooler

Stainless steel construction, bowl Ø 275 mm, depth 115 mm. Splashback height 330 mm. Perforated stainless steel mesh + tap with push button. Allows you to fill the exact quantity required. Stops immediately when the jug is removed. Its compact size means it fits into any premises, even the most confined spaces.

- Wall-mounted water dispenser, overall dimensions (W x D x H) (mm): 350 x 330 x 500, ref 504 251.

SEAMLESS INTEGRATION INTO TOURNUS UNITS

- Fits all Tournus * neutral-coloured units (widths 600 or 700 mm).
- Available heights: 900 mm (adults) and 720 mm (children).
- Built-in stainless steel pan measuring 355 x 305 mm, with stainless steel grid and drainage system.

*Except for units with drawers or a swing-out bin.

EASE OF USE

- A push-button tap that allows you to dispense exactly the desired amount.
- It stops immediately when the jug is removed, for greater convenience and precision.

PRACTICAL AND FUNCTIONAL DESIGN

- Magnetic splashback extension (height 500 mm), providing protection against splashes and serving as a display surface.
- Convenient storage for jugs, kept dust-free after cleaning.
