

# PRE-SORTING UNITS WITH WEIGHING SYSTEM FOR ADULTS

**Mobile pre-sorting units with weighing and splash back fitted with weighing system** and mobile bag holders. Splash back 170 mm high. Curved front edge. Choice of cladding for sides and front from the 15 shades selected in the Eurodekor by Egger range.

**Units 600 mm wide:** Lift-up and fold-away rail on stainless steel brackets for easy access to waste bags.

**Units 700 mm wide:** top forming a rail. Stainless steel construction, 900 mm high. Rear stainless steel cladding for wall or centre positioning. Top 15/10th mm thick including 1 to 4 waste disposal holes Ø 190 - 280 mm. Waste disposal holes with grey rubber surround for food waste. Stainless steel surrounds for the other waste disposal holes. Additional coloured surrounds can be ordered. Safety stand for units with rails to prevent any risk of tipping over. Battery with 5 hours autonomy, rechargeable on mains.

**Weighing system :** kit including scales and stand, a display, a special bag holder and an information plate. How it works : as soon as it is switched on, the scale displays and records the weight of what each diner throws away, as well as the date and time (displayed to the nearest gramme). Legal-for-trade scales. Automatically recorded data is available until it is deleted (up to 1 year of information), and can be retrieved at any time. Data can be retrieved via USB stick or Wi-Fi (optional) to a PC. One or more additional weighing systems can be installed in the factory or by you on site.

## Weighing kit :

- Scales and stand
- Display + grey surround
- Special bag holder
- Information plate
- 1 food waste sticker

(\*) Specify the position of the extra weighing kit
