

Mandarine

Fun catering for children

**TOURNUS
EQUIPEMENT**

Mandarine

Our achievements !

Mandarine is a meal distribution service for children, whose units are designed in the shape of fruit.

AN EDUCATIONAL SPACE

Mandarine is aimed at children who are curious to learn and discover new flavours. The range allows them to conduct their own experiments. **Mandarine** sharpens their powers of observation and gives them the opportunity to let their imagination run wild.

THE VIVIDNESS OF THE COLOURS

With **Mandarine**, the aesthetic is emphasised by bright and varied colours. The combination of fresh and dynamic colours on the one hand and original design on the other hand creates a recreational environment that brightens up your lunch break. With **Mandarine**, mealtimes take on a festive air.

GOOD EATING HABITS

Mandarine supports children as they develop their taste buds and learn about food.

Mandarine helps promote healthy and balanced eating from an early age. With Mandarine, all dishes taste good... even green vegetables!

LEARNING INDEPENDENCE

Moving away from the traditional linear school cafeteria, **Mandarine** allows children to learn to exercise their choices to the fullest. Each child can create their own meal plan according to their tastes and desires. Children learn to serve themselves like grown-ups at a cold buffet and discover new dishes.

Mandarine

POUR LES ENFANTS :

- a suitable height,
- a playful design with colours and fruit-shaped units,
- the educational aspect of the product, which teaches independence and good eating habits thanks to the clear display of the dishes.

FOR ADULTS:

- ease of cleaning for optimal hygiene,
- simplified service and a more rewarding role in supporting children.
