ELEMENT ■ ■
 SOLIDE. FONCTIONNEL. ESSENTIEL.

Like the new ELEMENT tables, ELEMENT stainless steel pans are a more competitively priced alternative to the standard range. ELEMENT stainless steel pans are between 0.5 and 0.7 mm thick, compared with 0.8 mm for the same pans in the standard range. The ELEMENT stainless steel pan range is particularly suitable for transporting and handling meals, especially between central kitchens and satellite kitchens. The lighter pans make handling easier, significantly reducing the strain on staff and helping to reduce the risk of musculoskeletal disorders.

Description	Depth (mm)	Capacity (litres)	Reference
ELEMENT GN 1/1 stainless steel tray	55	7.5	803 713
ELEMENT GN 1/1 stainless steel tray	65	8.5	803 714
ELEMENT GN 1/1 stainless steel tray	100	13	803 715
Stainless steel pan lid ELEMENT GN 1/1			803 718
ELEMENT GN 1/1 stainless steel lid without handle			803 719
ELEMENT GN 1/2 stainless steel tray	55	3.5	803 733
ELEMENT GN 1/2 stainless steel tray	65	4	803 734
ELEMENT GN 1/2 stainless steel tray	100	6	803 735
Stainless steel pan lid ELEMENT GN 1/2			803 738
ELEMENT GN 1/2 stainless steel lid without handle			803 739
ELEMENT GN 1/3 stainless steel tray	55	1.5	803 743
ELEMENT GN 1/3 stainless steel tray	65	2	803 744
ELEMENT GN 1/3 stainless steel tray	100	3.5	803 745
Stainless steel pan lid ELEMENT GN 1/3			803 748
ELEMENT GN 1/3 stainless steel lid without handle			803 749
